

PLDG to the number 42

22 November in 2003 I saw something that changed my view on this world forever. (Bare with me because I will not stay literal on this one.) In frustration over what seemed to mean another B52 'curtain bombing' Ra-ID over Iraqis people I asked 'god': "why if he/she really exists at all, why could it not just show us, so that we could stop bombing the shit out of each other!?" I leaned out the window to get some fresh air and there, less than 30 seconds after my question, a moon sized fireball flared across the night sky! The devil is in the details so I'll be short, all kinds of thoughts and explanations flew through my mind.

2/11-2009

Having had something I thought was a spiritual awakening I asked the Universe for information about the next 'Big False Flag operation'. Obviously if it could be disclosed beforehand that would mean the attack could be avoided all together. With that intention and pen and paper by my bedside I fell asleep that same night to have the following dream;

"I was sitting with my back against the windows inside an almost empty shopping / office facility in a harbour area. There was another being sitting on the same row of chairs to my left. I felt I knew it but did not know it's name. I was about to say something and looked over at the being when I saw a wall coming at us from behind, it was the towering bau of a ship plowing towards the South West entrance. I noticed later The ship had blue hull and white overbuilding when seeing it on a distance. I shouted "everyone get out!" and everyone in the facility managed to escape through the East X-it and ran past the next building while screaming warnings to everyone in the streets. As the ship came crushing out of the building we just escaped from and plowed across the street towards the next building, we ran in Northern direction. After a moment standing there watching in disbelief the destroyed buildings and the ship/ferrie stran-dead in a deep ditch in the street we all burst into laughter. We where unharmed! I woke up laughing so that I could almost not stop even though I was awake."

I closed my eyes wanting to get back into the dream but before that happened a loud foghorn or trumpet sounded out. This was in the middle of the forest and I had not gone back to sleep yet, there should be no foghorns out there. WTF! A picture of a name: "[P.L., pl Lehman]" came into my mind and I just had to get out of bed to Google the 'ships name' or whatever it could be. On my way to the computer I grabbed the guitar and struck a D chord (G clef / G nøkkel) which matched exactly the tone still ringing in my ears.

Wow! I wrote to Kerry Lyin Cassidy in Project Camelot to make her aware because this was nothing like I had ever experienced before. I thought at the time the so called 'truthers' was after a solution to stop the madness perpetrated upon humanity. I signed fearporn comments I made in newspapers comment fields etc., with P.L. Lehmann because I wanted it to be 'out there'. These are excerpts from the e mails that was sent to Kerry:

...in the alphabet, remove the PLDG, get off the EDGE/ETKE....P to R....L to R....D to T...G to

The pledge / 'PLDG' allegiance to the dead whore of Babylon was removed from the alphabet by
Kate of Kaea. The penetrating penis maskuline energy of the sigil 'P', the Lusiferian intent of the
letter 'L', the half done halving intent of sigil 'D'-oom /d-evil, and the spellbinding hex intent of sigil
'G'... all removed from the alfa-bets.

False Flags became 'Farse Fraks' and was cra-cket wide open for the farse they are.

Anogogic meanin in the state of now / know / ness:

'The blue ship with white overbuilding means, the mind of Ariske / Aryan / Orion blue blooded
loonatic moonarks, and on their team, all living dead u-sing legal names.
The ship / mind took down two corporate buildings, meaning Babylon Is Fallen.
The being I thought I knew was another point of m/e.
The [P.L, pl Lehman] riddle had finally been solved after 5 years of google and wondering.
P.L. + note of D, in G clef/key/nøkkel = P.L.D.G., removed and Veri-fied!

Time to play!

Each and every letter in the alphabet when spoken make up a sound on it`s own. Each and every
letter is therefore a sylable / psy-lable / syl-able etc., all on their own.

D is replaced by T / truth
G is replaced by K / spirit
Add that to your accord library K#

L is replaced by R / Rho / divine feminine spiritbreath of creation
P is replaced by R / Rho

These are some obvious facts about the alfhabet, not NAME/S for it.
It has 22 letters 11 numbers = 33 Sigils / psy-kils / Si-ki / Psy-ce / Si/Say (all of creation)-Key

'At first there was the word' and it exits from the mouth which in the Zodiac is ruled by Taurus the bull... Bible / bi-bull / twin torus field, split tongue of the hood'ed priest-hood / mind.

You can mirror each sign to the one right opposite, Leo to Aquarius, Taurus to Scorpio etc., in fact I'm just playing with it and you can do exactly what YOU want. An idea just in case someone else sees something x-sigh-ting or pro-found in it.

In 2011 you could add the last two digits your birth year (In the A.D. Anno Dom-i-ni calender) to the age you became that year, and the sum always came out to 111.

Moon equals 6, earth 9 and Heart 9. 69 make up 'Yin Yang' or Y-Inc and Y-An-k. Moon in-corpo-Ra-ted (dead orb). Why / Y-...Ink on dead pisces of 2D paper, 'Paper Moon', dead legal name whore-ship Amen / A-Moon Ra etc..

While there is Heart in the way of 'Kaea' the Earth. Why (except for that you k-now it) Y-'Anu' fhonic for Heart and 'K' for spirit.

Want to see another sin-kure-rarity / singularity? Uranus rules the heavens / heaved up / head. This is a brain map (BrainMaps.org). Notice how “the wig” is called barrels / B.A.R. El’s.

Here it is again with the title / tits-of-El 'temple B.A.R. judge' in Pink Floyd 'The Wall'

Look at 'his honours' chins, we are still in the head... for-n-ix / 9 of the brain

Here, taken from 'The Wall' again it goes into singularity of maritime / Mary / merry-time Ur-anus. “as above so be-Love”
